U.S. (Non-Humanitarian) Assistance Activities since November 22

RELEASED IN FULL

M 18

-- The Congressional Notification (CN) on the \$2.5 million in World Bank arrears for Rwanda expired December 2; paperwork (USG) has been completed. Disbursement may begin once the GOR provides required documentation, including a letter agreeing to conditionality (ensuring countrywide access to UNAMIR and human rights monitors, and naming point person for human rights).

-- Pledges for \$9.55 million to pay Rwanda's arrears have now been received by the World Bank (2.5-US; 2.0-BEL; 1.5-CAN 2.0-NL, .75-SW; .80-NO; all but CAN and BEL confirmed to WB). WB expects the \$50 million emergency reconstruction credit to come before the Board of Executive Directors for a vote in 1/95.

-- The CN for reprogramming of \$4 million in development aid from FY94 was sent to the Hill 12/2. An assessment mission visited Kigali in early December to discuss with the GOR proposals for the refurbishing of key ministries. With input from those discussions, the project must then be redesigned and an amended agreement signed with the GOR before disbursement.

-- The CN for the \$500,000 in ESF for the International War Crimes Tribunal is in preparation. The CN for the IO&P \$500,000 for the Tribunal expired December 13; funds will now be transferred to the UN Tribunal Trust Fund.

-- The \$750,000 for the UN monitors was obligated on December 6; we are awaiting formal acceptance from the UNDP in order to disburse the funds.
